To All Surrounding Neighbors of 706 Mission Street, San Francisco, CA

Subject: 706 Mission Street, The Mexican Museum
706 Mission Street
San Francisco, CA 94103

Regarding: Night Work from February 18, 2019 through February 22, 2019.

Dear Neighbors,

Webcor Builders is requesting the approval of a special Night Noise permit from the San Francisco Department of Building Inspection.

This request is for the extended hours of 8pm to 10pm, from Monday February 18th through Friday February 22th, installing structural steel columns and structural beams at the 706 Mission Jobsite. Please refer to the project website (706Mission.com) for the 3 week look ahead schedule. Throughout this period we will be installing structural steel columns and steel beams for Level 5. Followed by metal decking and cast-in-place concrete.

During off hours, trailers carrying steel beams and columns will stage within the jobsite. Trailers will enter and exit the site periodically. The trailers will be staged at the south east side of the project inside the Mission St. gate. Noise from handling tools, welding and cutting equipment and loud conversations will be held to a minimum. High impact tools such as jack hammers will not be used. Vehicles requiring back up alarms will be provided with "Broadband alarms" during off hours.

Webcor Builders will do our best to avoid any disturbances and keep noise to a minimum during this time.

If you have any questions, please do not hesitate to contact us at the phone number listed below.

Thank You,
Webcor Builders
